3.17 BRANCH LENGTHS

Ignore Branch Lengths

○ Geometry Dimensions ^

Node Size 0.50

Branch Width	1.0
--------------	-----

Label Size 1.6em

Line widths and label sizes scale with zoom to stay proportional to the tree.

Layout Transform ^

Layout Angle	360°
--------------	------

Rotation

② Angle affects the spread of branches, while rotation pivots the entire tree.

Coloring & Styling ^

Taxa Coloring M...

- ① Manage custom color for specific taxa and clades in a separate window.
